### Adaptation Summaries

While listening to the presentations, you need to explain adaptations of different organisms that help them to survive.

*\*Note: Each adaptation must come from a DIFFERENT presentation.\**

1. Name of organism:

- Explain an adaptation that helps this organism cope with climate and/or other abiotic factors

2. Name of organism:

- Explain an adaptation that helps this organism obtain food and water

3. Name of organism:

- Explain an adaptation that helps this organism defend against predators

4. Name of organism:

- Explain an adaptation that helps this organism attract mates

5. Name of organism:

- Explain an adaptation that helps this organism survive in any way
